

MADDHAPARA MINING COMPANY Production resumes after five months

OUR CORRESPONDENT, *Dinajpur*

State-owned Maddhapara Granite Mining Company in Dinajpur yesterday resumed its operations after a five-and-a-half-month suspension due to the unavailability of explosives, which are required to extract granite.

The company began functions yesterday afternoon, a day after a consignment of explosives arrived at the mining area at Parbatipur upazila, said its officials.

"Our production resumed around 4:00pm today [yesterday]. We need more days to ensure that production is in full swing," said Pinak Iqbal, general manager (production) of MGMCL.

On April 30, the company shut its operations due to the explosives crisis.

"Our production requires four types of explosives. But the reserve of explosives ran out on the night of April 30. That is why we were compelled to shut our operations," said Pinak.

In port city, many shops sell old electronic parts of ships after buying them as scraps and fixing them. Among these parts, ship lights are sold between Tk 700 and Tk 10 lakh, depending on size and quality. This photo was taken in Pahartali area yesterday.

In the last six months, he has already earned Tk 4 lakh after selling orchids through online

platforms.

Ali mentioned that his garden has around 5,000 orchid plants in his garden. He has 25 varieties of orchids of 200 colours. Of them, he has Dendrobium of 50 colours, Cattleya of 35 colours, seven colours of Vanda, 19 colours of ground

orchids, 9 colours of Oncidium and other orchids like Rhynchostylis, Epidendrum, Hoya, Aggregetum, Cymbidium, Pencil orchid, Green leaf, Million heart and others.
