What to do in your SSC vacation: Part 2

AHMAD TOUSIF JAMI

Once you're done with your SSC, you will find yourself busy preparing for the multitude of future challenges coming your way. However, this valuable vacation time can also be a great time to step back, relax and steadily prepare for the next steps. What's more, this is a one-time experience of life that never comes back. In this two-part article, we will look into some more ways you can make the best out of your well-deserved SSC vacation.

Take a day trip

You may tour someplace closer to your living city or slightly farther away. While a holiday park or resort are great ways to spend day trips, the better choice depends on what you are looking for in a day trip.

A resort will be a great choice if you are just interested in going somewhere to enjoy a wholesome time with your friends or family. But, if you want a rather action-packed day with fun games and challenges - perhaps a holiday park would be a better choice. You may go to these places with your close ones- and it is vital to stay safe while enjoying!

Volunteer for a cause

Another great way to make the most of the vacation is to volunteer for a social cause that resonates well with you. It could be any form of work, from helping to teach children in a socio-economically challenged area to assist in cleaning your neighbourhood and more. It could also be raising

crowdfund for community development or contributing to raising awareness for equity for all.

Volunteering is an excellent task during the vacation because it allows you to feel pure happiness with your work. This experience adds up to your resume for your future needs. It is a great way to show that you care for humanitarian causes. Moreover, it opens up the scope to meet and make new friends with whom you can bond well, given the shared interest. Even further, you may encounter challenging situations in your work volunteering that will help you mature and grow.

Do not stress over the results

Once the exam is over, you really cannot

go back and change anything. So staying worry-free to enjoy the time is the better choice. Of course, if there are lessons you want to learn from the exams you undertook, that is fine. However, the pressure needs to be in check.

Moreover, the social expectation could be that you stay in close touch with academics even during the vacation, precisely because of some college (level 11) entrance examinations. However, it is essential to note that those exams are a testament to your solidified basics, and you will not perform well unless you enjoy the process. As such, not stressing over academics but freely enjoying the vacation is the best route for SSC-completing students.
