

Bangladesh can be a crucial

FROM PAGE 5
“Bangladesh is a country which is facing significant problems in terms of climate change. You have climate refugees. This is why the country needs to have a wide vision of development,” he said.
Predicting Bangladesh as a potential global player, he said, “Bangladesh is a country with a fantastic potential to be one of the crucial global players. But this depends on you and your leadership and that of the society, which you

are going to create in the future.”
“Investment in the right fields can make it happen,” he added.
Mentioning the unpredictability of the world, Boris said the earth is in danger because of the climate crisis.
At the plenary session on “The Integration Agenda: A Roadmap Towards SDGs”, Debapriya Bhattacharya, distinguished fellow of Centre for Policy Dialogue (CPD), emphasised the youth’s potential, who

make up one-third of the South Asian population.
He said the partnership usually talked about is between the North and the South.
“However, SDG (Sustainable Development Goal) really allows for, rather promotes South-South cooperation,” said Debapriya.
Zillur Rahman, executive director of CGS, moderated the inaugural session, while Manjur A Chowdhury, chairman of CGS, chaired the session.

A step forward for Ctg

FROM PAGE 5
City Corporation (CCC) Mayor Rezaul Karim Chowdhury told The Daily Star yesterday that CCC previously conducted a preliminary feasibility study on setting up the metro rail in Chattogram.
“Based on that study, we sent a proposal to the relevant ministry a few months after I assumed office in January 2021,” he said.
Mentioning the ever-increasing pressure on the port city’s transport system with the expansion of industrial and business activities, the mayor hoped that the city dwellers will be benefitted from the service.
With the beginning of the feasibility study, the implementation of the metro rail service in Chattogram will take another step forward, he added.
Apart from the study, the project also plans on preparing a long-term, comprehensive transport master-plan as well as an environment-friendly metro system to reduce traffic congestion in the city and its adjacent areas, according to a document prepared by the planning ministry.

The project also aims to enhance the organisational traffic-management capacity of Dhaka Transport Coordination Authority (DTCA), Chattogram City Corporation (CCC), Chattogram Development Authority (CDA) and Chattogram Port Authority (CPA).
According to the ministry document, Chattogram – a city with a population of around 40 lakh – is experiencing a gradual expansion of industrial and business activities and an increase in population.
These issues are taking an enormous toll on the city’s transport system, resulting in acute traffic congestion, road accidents and air pollution.
It is mentionable that CDA in 1995 conducted a study on a long-term development strategy for traffic and transport in Chattogram.
Though different organisations separately took different initiatives for the development of the city’s transport system, the projects failed to mitigate public suffering due to the lack of a coordinated transport plan, stated the ministry document.

Petition challenging

FROM PAGE 3
country,” the minister had reportedly said.
On September 5, Md Ershad Hossain Rashed, a Supreme Court lawyer, filed the petition.
During the hearing on Sunday, Attorney General AM Amin Uddin opposed the petition.
He said the foreign minister’s statement has been published in a distorted manner in the

media, and he later made it clear.
Deputy Attorney General Arobinda Kumar Roy placed some papers before the HC bench refuting the statement published by the media.
Earlier on November 13, writ petitioner’s lawyer Mostafizur Rahman Ahad told the HC that Momen violated his oath and the constitution by making the comments.

Stop ‘leasing’

FROM PAGE 3
inaction to stop “leasing” footpaths should not be declared illegal.
The HC bench of Justice Md Mozibur Rahman Miah and Justice Kazi Md Ejarul Haque Akondy delivered the orders following a writ petition filed by lawyers Md Sarwar Ahad Chowdhury and Ripan Barai on behalf of Human Rights and Peace for Bangladesh on November 20.

Pointing out that ACC can only investigate one out of 27 predicated offences relating to money laundering, he said most of the money laundering offences took place under the guise of share-market business and document forgery, and are related to taxes.
The commission’s analysis shows that money laundering took place centring tax-related services, share-market businesses and documents forgery. However, the ACC is not mandated by the Money Laundering Prevention Rules (2012) under the Money Laundering Act to carry out investigations on these matters.
According to the rules, the ACC is given the sole responsibility to investigate money laundering offences related to graft and bribery, while NBR and Bangladesh Securities and Exchange Commission can probe crimes related to tax and capital markets, respectively.
Replying to a question, Jahurul said they cannot launch investigations on many corruption allegations due to the lack of proper evidence.
“I seek the media’s help to provide detailed information on

corruption,” he said.
Asked, ACC Commissioner Mozammel Haque Khan said a person can be implicated in several corruption allegations. “One can be innocent in one case but be involved in other cases. Now, if we make public the details of the cases in which the person is innocent, they take its benefit to be discharged of other cases,” he observed.
At the meeting, suggestions were made to raise campaigns against lawyers who fought for the offenders, but the ACC commissioner said it is not practically possible.
“A lawyer fights for a person on the grounds that his client is innocent. The campaign may deprive an innocent person of justice,” he added.
The ACC was formed through an act promulgated on February 23, 2004, after the abolishment of the Bureau of Anti-Corruption.

Eskayef first

FROM PAGE 3
In this journey, we aim to focus on complex injectable products and technology driven molecules in our pipeline to address unmet patient needs. Eskayef’s mission to serve mankind has always been driven by an unwavering dedication towards excellence. Our strategies are aligned with our ambitions in the journey forward to global markets.”
The success of exporting lifesaving medicines by Eskayef stretches back to the era of Covid-19 pandemic, when the company launched three consecutive first timer anti-Covid generic medicines in the world, Remdesivir (Remivir), Molnupiravir (Monuvir) and Nirmatrevir co-packaged with Ritonavir (Paxovir). Eskayef exported these anti-Covid medicines to 49 countries across the world.
Eskayef is growing more global and expanding its global footprint continuously. Currently the company is exporting its medicines to 68 countries across Asia, Africa, Europe, Australia, South America and North America.

Man held

FROM PAGE 5
A case has been filed against the arrestee, she added. Buying, selling, importing and exporting wildlife are punishable offences under the Wildlife Conservation and Safety Act.
The arrest was made as part of a month-long special drive to conserve wildlife, said the officer.
