“ It is a highlight of the year to organise the Outstanding Cambridge Learner Awards. We know that Bangladesh is a resilient country capable of facing and overcoming multiple challenges. This is exactly what these Awards represent: achievements that lift individuals beyond the moment of struggle and place them on the world stage, showcasing the academic brilliance Bangladeshis are capable of. Among many successes, in particular I'd like to highlight NINE awards where students rank #1 globally in their subject. As a school community, we can be very proud of our combined efforts that provide a platform for excellence across all the Cambridge schools. ”
