Narsingdi woman sees success in quail farming

OUR CORRESPONDENT, Narsingdi

It all began in 2002 when Hridoy, the only son of Anuwara Begum Doly, brought two quail birds to their home from his maternal uncle. But little did Doly know that it would be the start to her journey as a successful entrepreneur and role model for women across the district.

Doly, a resident of Narsingdi's Polasherchor under Zinardi Union, recently shared her success story with The Daily Star.

The birds started giving two eggs a day after three months, she said. She sold the eggs to the local market and earned some extra money. Motivated, she requested her husband to bring her more quail birds.

That went on for a while. Seeing profit in the venture, she asked him to invest more and start a full fledged business. Although her husband was

initially opposed to the idea, he ultimately brought 600 quails by investing Tk 20,000.

Her husband got trained on rearing quails from the Youth Development Department and passed the knowledge to Doly. Together, they started operating a full scale quail farm.

"Soon, we started to see profits. Although my husband

passed away 10 years ago, I carried on with my farms and helped those who wanted to follow in our footsteps."

She is now a proud owner of two farms where 35,000-40,000 quails are being reared. She gets between 8,000 and 10,000 eggs a day, for which she earns around Tk 25,000. She sells 100 pieces at Tk 230 to Tk

250, she said.

After taking all relevant expenses into account, she makes a profit of Tk 15,000 to Tk 18,000 per day, meaning her monthly profit is between Tk 3.5 lakh to Tk 4 lakh.

Besides, she now supplies quails to about 8,000 farms and entrepreneurs.

"Using incubators, I produce about 80,000 to 90,000 birds from eggs in a month," she added.

Her only son Hridoy is now an engineering student at a private university in Dhaka.

But it wasn't always smooth sailing for Doly. "My farms were affected by bird flu in 2007. Many of my birds died during this time."

"But I refused to give up. I received a donation of Tk 9 lakh from the then government and started all over again," she added.

INJECTING POISON

HC summons AL leader for killing 50 trees

STAFF CORRESPONDENT

The High Court yesterday summoned a local Awami League leader, Shahriar Alam, and told him to explain his role in reportedly killing 50 palm trees on Baigachha Road in Rajshahi's Bagmara upazila by using insecticides.

Shahriar, senior vice president of Shubhadanga union under Bagmara upazila, has been ordered to appear before Justice Abu Taher Md Saifur Rahman and Justice AKM Rabiul Hassan at 10:30am on February 12.

Terming it shocking, the court also ordered the local UNO and agriculture office to probe the reported allegation and submit a report in seven days.

The bench issued the summons order as a suo moto (voluntary) move, following an editorial published on Bangla daily Prothom Alo on January 31, headlined "50 Talgachhe Keetnashok (insecticides on 50 palm trees)".

Citing a report published on Prothom Alo, the editorial said Shahriar put insecticides inside the 50 trees by extracting their barks.

Man who stole 1,000 bikes in 15 years held

STAFF CORRESPONDENT

Detectives claimed to have arrested a member of a gang of motorcycle thieves who was involved in stealing around 1,000 bikes over the last 15 years.

A team of DB arrested Abdul Khaleq on Tuesday while investigating a general diary filed with Turag Police Station, Mohammad Harun Or Rashid, chief of detective branch of Dhaka Metropolitan Police, told reporters at his office yesterday.

Detectives also recovered 12 stolen motorcycles based on his information.

"During primary interrogation, Khaleq admitted that he stole around 1,000 motorcycle in the last 15 years," he said.

"He had at least seven others accomplices who were arrested by law enforcers earlier. The gang members committed the same crime after getting released on bail," he said.

The DB official said the theft of motorcycles is rampant and they often get complaints that bikes are being stolen from garages or roads.

He asked people to be careful before buying old motorcycles, and to check if documents were valid.

PATUAKHALI'S KALAPARA

Houses, fish enclosures at the expense of mangroves

SOHRAB HOSSAIN, Patuakhali

Destroying mangrove forests, fish enclosures and residential houses are being constructed in Patuakhali's Kalapara. Locals alleged that rather than protecting the forests, forest department is assisting a vested quarter to cut different species of trees including chaila, keora, bine and golgach.

Over the years, the mangrove forests have earned a reputation as green walls, for shielding people from cyclones and various natural disasters. Locals said if tree felling goes on unabated, they will be more vulnerable to storms.

Around 330km of embankment was constructed in Kalapara upazila in the 1960s to protect arable land and crops from salt water. Mangrove forests have been created outside these flood control dykes.

In a recent visit to Madhukhali village of Mithaganj union, it was seen that fish enclosures are being built on the banks of Sutakhali canal on the south side of East Dhukhali bazar.

Local Abul Kalam Khan is

building the enclosures on about 1.50 acres of land outside the flood control dyke.

Asked, he said a landless person named Moslem was allotted 1.50 acres of land by the government. After his death, Kalam said he bought the land from Moslem's son Fakirul and his wife Farida Begum.

Another local Sahin Hawladar is building a fish enclosure by uprooting trees on about an acre

of land, occupying the canal bank on the south side of Kalam's fish enclosure.

He did not agree to talk to this correspondent in this regard.

Besides, one Yusuf Sikdar is building a permanent establishment occupying 40 decimals of land on

the west bank of the canal. Sikdar claimed that he owns the land.

Ferdous Gazi of the same area has occupied the bank of a canal and built a house. He said he built a house on the land in front of his grandson's property.

Contacted, Latachappali Union Chairman Anshar Uddin Molla, said, "A group of people are felling trees during night to build houses and fish enclosures."

Forest Department Mohipur Range Officer, Abul Kalam Azad, couldn't be reached for comment despite several attempts.

However, Patuakhali Divisional Forest Officer Abdullah Al Mamun, said the matter will be investigated. "If necessary, those involved in these activities will be identified and brought under the law," he added.

Contacted, Shankar Chandra Baidya, Kalapara UNO and upazila forest and environment committee president, said the range officers of Forest Department have been instructed to take necessary legal action against those involved in the destruction of mangrove species and protected forest areas.

Firefighters dousing the blaze after a fire breaks out at the Export Processing Zone in Mongla, Bagerhat yesterday. No casualty was reported. It took 12 units of firefighters to bring the situation under control in 24 hours. The EPZ authorities formed a committee to find out the cause of fire.
