DB on August 20 said that they arrested 18 leaders and activists of BNP and its associate bodies, including six JCD leaders who went missing on August 18, for planning to carry out violence and anti-government activities.

The six JCD leaders were shown arrested with three firearms.

Later, on August 24, the DB arrested Abul Hasan Chowdhury, vice-president of JCD central committee, from the capital's Hatinpool. He was arrested with a pistol, two bullets, and three crude bombs.

BNP secretary general Mirza Fakhrul Islam Alamgir, however, earlier said that the DB's statements are completely fabricated.

Moslem's suffering to his mother. She transferred a total of Tk 6 lakh, over 26 transactions, to 12 BKash numbers as specified by the kidnappers.

PBI identified the captors in Iraq as Anwar, Shahnewaz, Ruhul Amin, Monir, Hasibur, and Sabir.

Despite the fact that they were located in Iraq, their family members residing within the country managed to withdraw the ransom funds using various bkash agents and their personal bkash accounts, he said.

Moslem, who was present at the press conference, said, "They locked me within a room in a house. There were

three other victims besides me in that room. All of them were shackled and tortured.

"Those whose families paid money, were tortured relatively less," he said.

Moslem said that one day he managed to escape by opening the shackles while in captivity. Then he returned to Bangladesh.

The PBI official said that Shahnewaz is the ringleader of the kidnapping gang and that there are multiple cases pending against some of the accused.

Among the eight arrestees, six of them gave confessional statements under section 164, admitting their involvement in the incident.

documents and using false paperwork.

Asked about Marshal's future, the mayor said, "We will continue to pursue legal action against Marshal for misrepresenting the pesticide even though it is correct and effective. I will not condone any corruption or irregularities."

The corporation is now awaiting the government's green signal. This time, the contractor company should have a proper license to import BTI and have to provide proper paperwork, said DNCC sources.

In this regard, DNCC Mayor Atiquil Islam said, "The performance of BTI in the lab tests of two government agencies is satisfactory... We are thinking about reimporting the pesticide from authentic sources."

DNCC had imported five tonnes of BTI through Marshal Agrovet Chemical Industries Ltd. However, the company was blacklisted after the corporation breached the contract by importing the chemicals from China instead of Singaporean company Best Chemical Co (S) Pte Ltd.

Following the incident, DNCC sued the company and also formed a five-member committee to probe the issue.

Guard Nahid has been detained in this connection, the OC said.

All other contents of the Tender Notice shall remain unchanged.

## New bean variety

Sikribi-1 variety of beans for the first time. The yield has been very good. I can sell 25 to 30 kg of beans per day. Prices are also high because this is not the season for beans."

He said, during winter, price of beans drop to Tk 10-12 per kg, leaving little margin for profit.

Mohammad Ali, another farmer, said, "I cultivated this bean variety in two bighas of land. It is more profitable than paddy. There is no need to take the harvest to the market, as wholesalers from Dhaka, Sylhet and other places come and buy it directly from us. Next year, I plan to cultivate Sikribi-1 variety on more land."

According to farmer Hashem Mia from the same village, it is recommended to sow the Sikribi-1 seeds at the beginning of Bengali month Baishakh. After 25-30 days, germination will begin and flowers will emerge. About one and a half months later, the beans can be picked and this process can continue for up to six months.

Masukur Rahman said,

if such bean seeds are sown in April or at the end of winter, they can be harvested after 80-85 days. We are supporting the farmers by providing fertilisers, seeds and necessary advice.

Farmers of Dengar Ban village are selling about 600 kg of beans every day. Beans worth around Tk 20-25 lakh have been sold last month. Another Tk 35-40 lakhs of beans are likely to be sold, said Sreemangal Upazila Agriculture Officer Md Mohiuddin, adding that beans worth around Tk 80 lakh can be sold using just three hectares of land.

Md Musharraf Hussain Khan, additional director of the Department of Agriculture Extension in Sylhet, said the variety has no negative impact on the soil.

Encouraged by the results, the agriculture department has taken the initiative to collect the seeds of this exceptional bean variety and distribute them to farmers all over the country. This will boost overall agricultural productivity and economic growth, he added.
