Global aluminium output hits record high

BUSINESS

REUTERS, London

production of Global primary aluminium hit an all-time high in August, with the world's smelters running at an annualised rate of 71.2 million metric tons.

It was the second consecutive month that run-rates were above the 70-million metric ton mark. Prior to July the level had been exceeded only once, in August 2022.

International Aluminium Institute (IAI) made some significant revisions to its primary production numbers in its latest monthly update, lifting previous assessments of output in both China and the rest of the world.

It's now clear that China, the world's largest producer, is experiencing a production surge thanks to improved power supply in previously droughthit parts of the country's hydro-electric system.

What's not clear is whether Chinese demand can absorb the new wave of production.

Non-Chinese aluminium production has been running higher than previously assumed.

The IAI has revised upwards its estimates from the start of last year, adding around 577,000 metric tons of annualised output to its "unreported" category.

Most of the increase is down to previously uncounted production in Malaysia and Iran, neither of which reports output numbers directly to the Institute.

China's production through the first half of the year has also been revised significantly higher.

Bithi Rani makes a living by weaving baskets out of coloured strips of bamboo in Kanki village at Barishal's Bakerganj upazila. She can earn up to Tk 25,000 a month selling each basket for Tk 50. This traditional craft passed down through generations remains relevant today for the many functional benefits of bamboo, such as being lightweight and flexible yet sturdy and strong. Additionally, bamboo's natural antibacterial properties make it an excellent choice for food storage. The photo was taken last week.

Food, agri expo begins tomorrow

STAR BUSINESS REPORT

A three-day "BAPA FoodPro International Expo 2023" will begin at International Convention City Bashundhara in Dhaka from tomorrow showcasing agricultural and food products and services of over 200 companies from 20 or so countries, including India, Thailand, China, the US and the UK.

Organised by Bangladesh Agro Processors Association (BAPA) and cohosted by the Rainbow Exhibition and Event Management Services Limited, the event will include technical sessions of experts from home and abroad, according to a press

An 11th Agro Bangladesh Expo 2023 and Food Ingredient Expo 2023 will also be concurrently held at the same venue.

Munshi seeks Mexican investment

STAR BUSINESS REPORT

Commerce Minister Tipu Munshi has urged Mexican entrepreneurs and business community to invest in Bangladesh's economic zones.

He made the call during a bilateral meeting with Mexican Secretary of Economy Raquel Buenrostro in Mexico on Tuesday, according to a commerce ministry press

This was the first such top-level meeting between the two countries in nearly five decades, it said.

Munshi, who is currently leading a 12-member high-level business delegation in a visit to the North American country, also proposed the formation of a bilateral trade group to enhance cooperation.

In the meeting, Munshi and Buenrostro pledged to take economic relations to new

In order to build a Smart Bangladesh by 2041 and make the country one of the fastest-growing economies in the Asia-Pacific region, the government has set a target to establish 100 economic zones, said Munshi.

"Many countries have already invested in the economic zones," he added.

Buenrostro stressed concluding agreements on double taxation and customs.

She also urged Bangladeshi to explore businesspeople opportunities in Mexico and expressed her country's interest in investing in the pharmaceutical sector of Bangladesh.

BB fixes interest rate for loans from green fund

STAR BUSINESS REPORT

The central bank yesterday fixed the interest rate of its US dollar and euro financing from the Green Transformation Fund (GTF) owing to the discontinuation of Libor and the upward trend of the interest rate globally.

The Bangladesh Bank operates the fund in the two currencies to extend loans to authorised dealers (ADs) for on-lending or re-financing to borrowers to help them implement green and

environment-friendly initiatives.

The rate-fixing comes after the London Interbank Offered Rate (Libor), a benchmark interest rate at which major global banks used to lend to one another in the international interbank market for short-term loans, ceased to exist.

Following the rate scandal, the Libor was phased out gradually from 2022 before abolishing it completely in July 2023.

Like most of the borrowers in other countries, Bangladesh's businesses also took foreign loans based on the rate. Given the global context of the Libor discontinuation and the rising interest rate globally, the interest of the financing from the fund has been fixed at 5 percent per annum, said the BB in a notice yesterday.

Unilever appoints new HR director

STAR BUSINESS REPORT

Unilever Bangladesh Limited (UBL) has appointed a new human resources director. The official,

Durdana Kabir, joined the management committee of the fast-moving consumer goods (FMCG) company on September 17, according to a press release.

With more than 25 years of experience in the industry, Durdana served in diverse capacities at

She also worked as the regional head of talent and organisational development for Nestle Malaysia and Singapore, and later for the Central and West Africa region.

She commenced her career at British Airways on studying English at the University of Dhaka and attaining an EMBA from North South University.

Arrival of foreign tourists

FROM PAGE B1 abroad in the 2018-19 fiscal

year, including 3.73 lakh any specific instruction for for holiday and recreation, destination," the country usually go for a Shopping spree, would not been made mandatory. against such transactions." on "Tourism Satellite Accounts 2020" by the Bangladesh Bureau of Statistics (BBS).

Of them, 60 percent went to India while 8.12 percent visited Saudi Arabia. 4.57 percent travelled to Malaysia and a substantial number visited Thailand, Dubai, Africa, Nepal and Turkey.

Bangladeshi tourists spent Tk 336.87 billion foreign countries, according to the survey.

Sources said foreign tourists mostly visit sites in Cox's Bazar, the Sundarbans and Sylhet.

Masud Hossain, managing director of The Bengal Tours Limited, said the tourism industry was growing organically. He also blamed a lack of

planned promotion. "We don't lack products (tourist destinations and hotels) and many domestic tourists are available," he said.

"Now, Sri Lanka has arranged two months of road shows in Japan. They are vehemently trying to recover their tourism industry," added Masud.

Before the pandemic, Masud used to handle 7,000-8,000 around foreign tourists yearly. This year, he expects around 1,500 only.

"We seriously lack in terms of promoting our tourist destinations to foreigners in the global market," said Shiblul Azam Koreshi, president of the Tour Operators Association of Bangladesh (TOAB).

He said they had to depend on the domestic market of 1.5 crore people. "Although promotions

expensive, government should move to promote destinations to the global market through media platforms like BBC and CNN."

"We also need to country-specific promotion, especially in populous nations like

India and China, which can be a game changer for Bangladesh as a tourist Koreshi added.

issue Another the implementation of electronic visas for tourists. Nationals of 61 countries presently have access to onarrival visas, which should be expanded further.

"The facility to obtain a visa without hassle is a must to attract more and more tourists," said Koreshi.

However, Koreshi hoped that the numbers would continue to rebound.

Santus Kumar Deb, professor and chairman of tourism and hospitality management department at the University of Dhaka, suggested promotional development and the implementation advanced technologies to ensure services such as

There is no alternative to improving domestic facilities and ensuring promotion in the global market, he said.

transport for tourists.

Speaking Daily Star, Abu Tahir Muhammad Zaber, chief executive officer of the Bangladesh Tourism Board (BTB), blamed a lack of funds.

"We need a huge amount of money to advertise on the global media like BBC and CNN to attract foreign tourists," he said.

Zaber said they had instead chosen alternative paths to explore global markets, especially European and Chinese markets.

"We have contracts with some Bangladeshi expatriates who are involved in tourism in those areas. They will promote Bangladeshi tourist spots and help bring foreign tourists," added Zaber.

The BTB has arranged four-day "Bangladesh Festival", aiming to promote tourism in Bangladesh on the occasion of World Tourism Day today. The festival will begin today at the Bangabandhu International Conference Centre in Dhaka.
