WALK THE TALK

In conversation with leaders of private university education in Bangladesh

Prof. Dr Md. Abdur Rahman
Pro Vice-Chancellor,
American
International
University-
Bangladesh (AIUB)

Over 28 years, AIUB has earned a commendable reputation for delivering high-quality education. AIUB aims to attract and support exceptional individuals with diverse backgrounds.

In honour of the founder chairman, AIUB has established the "Dr. Anwarul Abedin Institute of Innovation (D2A2I)" to encourage research among both teachers and students. AIUB has also established research centres like Center for Nanotechnology Research (CNR), Center for Biomedical Research (CBR), Center for VLSI and Embedded Systems (CVES), Center for Sustainable Energy Research (CSER), and a Business Incubator.

AIUB is dedicated to providing cutting-edge tools that foster an optimal teaching-learning environment for students. All our programmes have received accreditation and recognition from both local and international quality assurance authorities.

AIUB boasts state-of-the-art laboratories and curricula designed to equip students with the latest knowledge and skills. Our distinguished faculty, numbering over 400 members, holds a minimum academic qualification of master's, with around 40 percent holding doctoral degrees. With a proud alumni network of over 37,000 graduates, many of whom are in renowned global companies, AIUB has proven its dedication to producing graduates of exceptional calibre.

Our strong industry ties provide valuable opportunities for internships, cooperative education, and practical experiences that significantly enhance students' employability.

AIUB has transformed all programme curricula into outcome-based structures, integrating Sustainable Development Goals (SDGs).

Prof. Dr Abdul Awal Khan
Vice-Chancellor,
International
Standard University
(ISU)

International Standard University (ISU) aims to provide social service through quality education with moral values, and achieve excellence as a seat of learning through devotion, hard work, and sincerity.

With support from the ISU BoT and academic and administrative members, we have created various ways to continue innovation and quality pertinent to education and research by collaborating with diverse industries and authorities, like the Standard Group Ltd., University Grants Council, Bangladesh Accreditation Council, associated academic institutions, and several corporate organisations.

We have developed the university's capacity to invest in students, teaching, and research activities. We have nurtured the careers and well-being of the students by creating platforms for career development to maximise their capabilities, stimulating outstanding research and innovation that fully supports student well-being.

ISU faculty members are well-qualified, having higher degrees from top-ranked universities from home and abroad. The curriculum has been developed to promote critical thinking and openness for the students to learn, providing them with the required knowledge and skills to tackle the challenges of the 4th industrial revolution and enabling them to adapt accordingly.

The university has founded the Center for Higher Studies and Career Development (CHSCD), aiming to provide job opportunities for students who are financially weak and not academically sound enough to qualify for scholarships or waivers, to allow them to pursue their studies unhindered.

Prof. Dr Eaysmin Ara Lekha, PhD
Vice-Chancellor,
Uttara University

Uttara University was established in 2003 with the motto "Quality Education at Affordable Tuition". The mission of this university was primarily to provide quality education to those who found it difficult to bear the cost of higher education within Bangladesh.

In 2023, Uttara University has emerged as a hub of research, and the motto has evolved into "Excellence in Higher Education and Research". This shows the amazing growth the university has achieved in the last 20 years.

Students choose to study at Uttara University because of the unique facilities they get, like affordable tuition, tuition waivers, state-of-the-art academic buildings, free transportation all over Dhaka city, well-equipped laboratories, and much more. We believe that quality education can reach students at an affordable cost. We have a policy of Founder's Scholarship, under which meritorious students study for free at UU.

Our university puts a lot of emphasis on encouraging and inspiring students to stand beside disadvantaged people in times of need. Students are always encouraged to attend counselling sessions periodically where they are motivated to learn and enhance IQ, EQ, and human qualities so that they can not only develop themselves but also contribute to society and the nation. We have a team of dedicated clinical psychologists under our Drop-Out Prevention Unit which caters to the mental health needs of our students. Recently, our Bangla department inaugurated South Asia's first Health Humanities lab.

We are a university that creates leaders, strives for excellence in research, and assures quality in education and we are developing ourselves to be future-proof.

Brigadier General Md. Anisur Rahman (Retd)
Advisor, Presidency
University

Presidency University (PU) stands as a centre of academic distinction, research strength, and a hub for diverse extra and co-curricular activities. PU is dedicated to providing quality education at its core.

The institution offers diverse academic programs, including Business Administration, Economics, Computer Science and Engineering, English, Civil Engineering, Electrical Engineering and more. Renowned scholars and industry experts form the faculty, ensuring a rich academic environment that encourages critical thinking and innovation. The curriculum is designed to impart knowledge and nurture critical thinking, creativity, and problem-solving skills.

PU embraces students from various cultural backgrounds. This multicultural and ethnic diversity enriches the learning experience, fostering an environment where tolerance, understanding, and collaboration thrive.

The university also places a strong emphasis on preparing students for the professional world. Collaborations with industry leaders, internships, and career guidance programs are integral parts of the academic journey.

Recognising the significance of physical well-being, PU places great emphasis on sports and fitness activities. PU takes great pride in its robust research culture. The institution actively promotes research endeavours across departments, encouraging students and faculty alike to explore new frontiers of knowledge.

PU stands tall as an institution that not only imparts quality education but also cultivates a nurturing environment for holistic growth. By combining academic rigour, research excellence, and a vibrant campus life, it continues to produce graduates equipped to thrive in an ever-evolving global landscape.

IUBAT—International University of Business Agriculture and Technology

Founded 1991 by Md. Alimullah Miyan

**ADMISSION OPEN FOR
SPRING 2024**

PROGRAMS

- MPH
- MBA ■ BBA
- CSE ■ EEE ■ Mechanical ■ Civil
- Economics ■ Agriculture ■ English
- Tourism and Hospitality Management

FEATURES

- 20 bigha river view green permanent campus
- Ranked #1411 position in QS World University Rankings 2024
- 601-800 position out of 1524 worldwide ranked institutions in the Times Higher Education Impact Rankings 2022.
- 39th Ethical University of the world in the World University Ranking Index (WURI)
- 735 position out of 8084 worldwide ranked institutions in the SCImago Institutions Ranking 2022
- 294th among 956 Universities of the World in Green Metric Index
- All full-time teachers and 70+PhDs
- Free transportation facilities
- Health insurance for all students
- Career development courses and facilities for job placement
- Indoor & outdoor games facilities
- Linkage with 112 institutions in 27 countries.
