

BEYOND THE SCREEN

TASNIA FARIN'S

style

files

Tasnia Farin is not only a powerhouse performer, but also a trendsetter in the ever-evolving landscape of fashion. As she recently graced The Daily Star Centre for a photoshoot with her radiant smile and an aura of elegance – bringing a whirlwind of charm and style – we could not help but be captivated by her unique fashion sense and ask her to reveal her choices.

Farin's style reflects her fearless spirit, seamlessly blending tradition with contemporary flair. There is a certain magnetic quality about her style that sets her apart from the crowd – a unique blend of sophistication, playfulness, and a dash of unapologetic boldness.

She arrived at The Daily Star in flared black pants, a crop top and a jacket – showing style and comfort – and perfected with confidence. When we asked how would she describe her personal style in three words, she replied, "comfortable, effortless, and chic." During our conversation, she revealed her penchant for comfortable wear.

"Fashion for me is a form of self-expression, and my go-to attire would be anything that helps me to be at ease and feel

confident," she shared.

From red carpets to casual outings, Farin's wardrobe is a kaleidoscope of styles. She seamlessly transitions from elegant saris that pay homage to her heritage to chic, contemporary ensembles that showcase her versatility. It is this ability to embrace both the traditional and the modern that sets her apart in the fashion landscape.

While talking about her preference for saris, she said, "I would always go for something comfortable, but the mood and occasion matter to me equally. I prefer deshi materials; Jamdani and cotton would be at the top of my list.

"But as you see, this is a very Katan season. So, I wouldn't mind donning a Katan sari with a chocker," chuckled Farin as she updated us

on her fashion choices.

When it comes to jewellery, Farin would not wear something heavy, rather simple and elegant pieces of jewellery attract her. She mentioned, "I love wearing different types of earrings and bangles — I find the sound of bangles quite fascinating."

No matter how plain and simple things attract Farin – she is all in all – a globetrotter. In the course of our conversation, she informed us that this year, she travelled to almost 10 countries, and her passport awaits more visas!

"I love travelling and in Bangladesh Cox's Bazar is my favourite as growing up, I had spent a memorable time there. And outside of the country, my preferred travel destinations would definitely be Thailand

and the UK," recounted Farin.

One of the defining features of Farin's style is her love for experimentation. Whether it is playing with bold colours, unconventional silhouettes, or unexpected accessories, she fearlessly pushes the boundaries of conventional fashion.

"I like pastels. But I also would not mind experimenting with black and white and off-beat colours," informed Farin as she got ready for her photoshoot.
