

WHERE FLEXIBILITY MEETS QUALITY

Team Developers redefining luxury residence

In the vibrant landscape of Dhaka's real estate, where aspirations reach for the sky, Team Developers, a proud subsidiary of the illustrious Team Group, stands out from the rest. Nestled in both the upper and mid-upper echelons of the market, Team Developers has woven a narrative of architectural grandeur and timely delivery, shaping the city's skyline with a commitment to excellence.

Prime locations and quality

In the heart of luxury, Team Developers graces upper-market areas like Banani DOHS and the Baridhara Diplomatic Zone, crafting residences that redefine opulence. The upper mid-market finds its expression in areas like Uttara Sector-3 and Shyamoli, where Team Developers seamlessly blends sophistication with comfort.

Team Developers are experts at building modern architecture with state-of-the-art facilities — gyms for the health-conscious, tranquil prayer spaces, stunning swimming pools, and fancy party lounges. The goal is clear: the residences are not just abodes; they are sanctuaries of comfort and style.

Behind every brick and beam is a commitment to quality. Team Developers employ high-grade construction materials—Reinforced Concrete (RMC), electromechanical features, robust rebar, resilient bricks, and enduring cement. Functionality meets aesthetics in every design, a seamless fusion of form and purpose. The interiors, a canvas awaiting personalisation, can be customised at the client's behest. This ensures that each resident's dream home is uniquely their own.

Timely handover

At the core of Team Developers' philosophy are four pillars—timely project handovers, quality construction, exclusive locations, and customer-friendly service. These pillars uphold the foundation of every project, ensuring not just structures but lasting legacies. The emphasis on timely delivery speaks volumes about their commitment to turning promises into reality.

The hallmark of Team Developers lies not only in its promises but in its delivered commitments. Projects in Bashundhara and Banani DOHS stand as testament to their pledge of timely project handovers. Furthermore, flexibility isn't limited to design; it extends to payment options. Clients have the convenience of paying via instalments, making luxury living accessible without compromising financial plans.

Upcoming projects

Looking ahead, Team Developers has a number of upcoming projects in different areas of Dhaka — Jolshiri, Uttara, Banani, Banani DOHS, and Indira Road. Each of these endeavours bears the distinctive mark of renowned architects, a fusion of creativity and functionality. These architects, handpicked for their prowess, bring visions to life, elevating living spaces to an art form.

Team Developers aren't just builders; they are curators of lifestyle. Exclusive locations become canvases for architectural masterpieces, and every interaction with a client is a journey toward turning dreams into keys. It's not just a business; it's a passion, a dedication that echoes through the testimonials of satisfied homeowners.
