BEYOND NECESSITY

Bags as style statements

What used to be a utilitarian piece of accessory meant to carry out essentials from here to there is now possibly the most important element — bags and purses are now the shining stars of our fashion repertoire. The easiest way to breathe life into an outfit or to elevate a look is through the right accessories chosen with much deliberation and careful thought. Bags began as a humble necessity but have slowly evolved into a key element that instantly elevates or downgrades a look. Because a bag isn't just a bag anymore; it is a shining beacon of our hopes, dreams and aspirations of who we want to be in front of the world.
