

PREPARING FOR THE FUTURE

SUPPLEMENT

PRIVATE UNIVERSITIES & the evolving job market

PRIYAM PAUL

Since their establishment, private universities in Bangladesh have strived to address the demand for qualifications crucial for career advancement. Over the past three decades, they have played a vital role in every sector, despite constraints, by supplying a proficient and dynamic workforce. However, as the world undergoes rapid transformation, the challenge persists for this sector to adapt to the evolving nature of work demands. To sustain their impactful contribution, it is now more imperative than ever for universities to provide comprehensive educational training and develop essential skills. Consequently, universities are strategically focusing on addressing this imperative need.
