Bridge lies incomplete for two years

Commuters forced to use earthen diversion road

SUZIT DAS, from Rajbari

Commuters in Rajbari Sadar upazila have been suffering for over two years as construction work of a new bridge over the Mora Kumar river was abandoned by the contractor firm after they demolished the old bridge there.

Local Government Engineering Department in the upazila took the initiative to demolish the old girder bridge on the river connecting Kolarhat-Nimtala road in December 2021, and replace it with a new 20-metre-long and 7.33-metre-wide bridge at a cost of Tk 1,89,71,000.

A contractor firm from Barishal, Rupali Construction, was awarded the tender for the project, slated to be completed by June 2023.

After demolishing the old bridge and making a narrow, earthen diversion road for vehicles to cross over during the project duration, the contractors, however, abandoned the work and

The Kolarhat-Nimtala road district Rajbari connects headquarters to the rest of the district. Also, Dhaka-bound passenger buses and other vehicles from Rajbari and Faridpur use the road. Since the old bridge was demolished, plying of buses, trucks, private cars, ambulances, and all other four-wheelers has remained suspended.

At present, commuters can only use rickshaws and easy-bikes on the unpaved diversion road to cross the river and get on other vehicles.

Visiting Kolarhat area recently, this correspondent saw an around 20 feet deep ditch was dug on Kolarhat-Nimtala road for construction of the new bridge, with the diversion road beside it to allow small vehicles to ply. However, there was no signboard on the road.
