

Over half of cropland in hungry Gaza damaged: UN

REUTERS, Geneva

More than half of Gaza's agricultural land, crucial for feeding the territory's hungry population, has been degraded by conflict, satellite images analysed by the United Nations show.

The data reveals a rise in the destruction of orchards, field crops and vegetables in the Palestinian enclave, where hunger is widespread after eight months of Israeli bombardment.

The World Health Organisation warned on Wednesday that many people in Gaza were facing "catastrophic hunger and famine-like conditions".

Using satellite imagery taken between May 2017 and 2024, United Nations Satellite Centre (UNOSAT) and the UN Food and Agriculture Organization

(FAO) found that 57 percent of Gaza's permanent crop fields and arable lands essential for food security had shown a significant decline in density and health.

"In May 2024, crop health and density across the Gaza Strip showed a marked decline compared to the average of the previous seven seasons," UNOSAT said yesterday.

"This deterioration is attributed to conflict-related activities, including razing, heavy vehicle movement, bombing, and shelling."

The decline, UNOSAT said, marked a 30 percent increase in damaged agricultural land since it published its last analysis in April, reports Reuters.

UKRAINE SUPPORT PLAN G7 leaders agree \$50bn deal

REUTERS, Borgo Egnazia

Leaders of the Group of Seven (G7) major democracies yesterday agreed an outline deal to provide \$50 billion of loans for Ukraine using interest from Russian sovereign assets frozen after Moscow launched its invasion of its neighbour in 2022.

The political agreement was the centrepiece of the opening day in southern Italy of the annual summit of G7 leaders, attended for a second successive year by Ukraine's President Volodymyr Zelensky.

The Ukrainian leader was scheduled to sign a new, long-term security accord with US President Joe Biden later yesterday, as well as one with fellow G7 member Japan.

Many of the G7 leaders are struggling at home but determined to make a difference on the world stage as they also seek to counter China's economic ambitions.

"There is a lot of work to be done, but I am sure that in these two days we will be able to

have discussions that will lead to concrete and measurable results," Italian Prime Minister Giorgia Meloni told her G7 guests as their talks started in a luxury hotel resort in the southern region of Puglia.

The G7 plan for Ukraine is based on a multi-year loan using profits from some \$300 billion of impounded Russian funds.

The technical details will be finalised in the coming weeks, a G7 diplomatic source told Reuters. The source, who asked not to be named, said the additional funding would arrive by the end of this year.

A senior US official said the United States had agreed to provide up to \$50 billion itself, but that amount could decline significantly as other countries announced their participation.

The aim of the deal was to ensure it can run for years regardless of who is in power in each G7 state - a nod to concerns that US Republican presidential candidate Donald Trump might be much less sympathetic to Kyiv if he beats Biden in November, according to a person close to the talks.

While Meloni is flying high after triumphing in weekend European elections, the leaders of the other six nations - the United States, Japan, France, Germany, Britain and Canada - face major domestic woes that risk undermining their authority.

Smoke rises following a fire at an oil refinery, on the outskirts of Erbil, Iraq yesterday. At least 10 people including firefighters were injured while battling to control the blaze, the civil defence agency reported.

Shakib inspires Tigers

FROM PAGE 1

The result also means Sri Lanka are out of the tournament, managing just one point in three matches.

Just a victory in their final group game against a lower-ranked Nepal on June 17 will ensure Bangladesh's progression to the next round. But even if the Tigers lose to Nepal, it would take either of two unlikely outcomes to materialise -- the Netherlands beating Sri Lanka by a healthy margin or Nepal beating South Africa -- for Bangladesh to be denied a Super Eight spot.

Shakib replied to a barrage of criticism for his underperformance in the first two matches in the best way possible -- becoming the eighth batter to reach the landmark of 800 runs in the T20 mega event while reaching his 13th T20I fifty off just 38 deliveries.

He smashed a total of

nine boundaries and starred in three crucial stands of 48, 41, and an unbroken 29 with Tanzid Hasan (35 off 26), Mahmudullah Riyad (25 off 21), and Jaker Ali (14* off 7), respectively, to propel Bangladesh to a competitive score.

Meanwhile, Rishad bowled a momentum-changing 15th over just when it was needed the most, with the Netherlands cruising towards the target at that point -- needing 56 off the final six overs with seven wickets in hand and two Dutch batters, skipper Scott Edwards and Sybrand Engelbrecht, well set in the middle.

Rishad was taken for seven runs, including a boundary, in the first three deliveries but the 21-year-old showed why Bangladesh needed to include a genuine leggie in their T20 World Cup squad for the first time as he had Engelbrecht top

edge one to Tanzim Sakib at point.

Just a ball after ending a crucial 42 run stand between Engelbrecht and Edwards, Rishad had Bas de Leede stumped -- enticing the batter forward with a sharp turn and bounce that was complimented by Liton Das' brilliant glovework behind the wickets -- as the Netherlands suddenly found themselves in a spot of bother at 111 for five after 15 overs.

Mustafizur, who bowled brilliantly to give away just 12 off four overs, made the dangerman Edwards his sole victim of the day in the 17th over before Rishad had Logan van Beek top-edge one for a caught and bowled in the very first delivery of the next over.

Rishad finished with figures of three for 33 as the Netherlands could never bounce back from that situation.

Govt mulling

decided that a proposal would be sent to China, for project funding," she said.

Bangladesh sent the PDPP of the project to China in March 2021 seeking a loan for the project.

After evaluating the PDPP, the Chinese government identified some weaknesses in the project, and they sent their recommendations on the project to the government in March this year, Hasina said.

Hasina told the House that the Chinese government, in their evaluation, mentioned a lack of detailed proposals on land development and water navigation. They also suggested downsizing the project by excluding some of the components and recommended implementing the project in phases.

She added that a Chinese company, "Power China", had sent a proposal to the Water Development Board for a detailed feasibility study of the project, which is now under consideration.

Hezbollah attacks 9 Israeli military sites with rockets

REUTERS, Beirut

Lebanon's Hezbollah said yesterday it had launched rockets and weaponised drones at nine Israeli military sites in a coordinated attack, ramping up hostilities on Lebanon's southern border for the second consecutive day.

The attacks were made in retaliation for an Israeli strike on Tuesday that killed a senior Hezbollah field commander.

The group said in a statement it had fired volleys of Katyusha and Falq rockets at six Israeli military locations. Its Al-Manar television reported more than 100 rockets fired at once.

Hezbollah's statement said it had also launched attack drones at the headquarters of Israel's northern command, an intelligence headquarters and a military barracks.

A security source told Reuters that involved firing at least 30 attack drones at once, making it the group's largest drone attack to date in the eight-month-old Israeli offensive in Gaza.

The group said yesterday's attack was in response to the killing. It had already carried out at least eight attacks on Wednesday in retaliation.

Israeli strikes have killed more than 300 Hezbollah fighters in Lebanon - more than it lost in 2006, when the sides last fought a major war, according to a Reuters tally.

WSJ says its journo will face 'sham trial' in Russia

AFP, New York

The Wall Street Journal (WSJ) yesterday lashed out at Russia's "outrageous" announcement that its imprisoned reporter Evan Gershkovich will face trial on spying charges.

"Evan Gershkovich is facing a false and baseless charge. Russia's latest move toward a sham trial is, while expected, deeply disappointing and still no less outrageous," Journal chief editor Emma Tucker and top executives said in a statement.

Russian authorities accuse Gershkovich, a Russia correspondent for the leading US business newspaper, of spying and working for the CIA.

He has been imprisoned since his arrest in March 2023 while on a reporting trip to the Urals city of Yekaterinburg.

The Journal's statement said he has so far been held 441 days "for simply doing his job. Evan is a journalist."

BANGLADESH ELECTION COMMISSION
