Gold hits record high

Gold prices hit a record high on Tuesday as a weaker dollar and buying by Western investors extended the precious metal's rally amid bets the US Federal Reserve will cut interest rates in September.

Spot gold rose 0.7 percent to \$2,522.25 per ounce by 1014 GMT, surpassing a previous record hit on Friday. London's gold price benchmark hit an all-time high of \$2,521.55 per ounce at a morning auction on Tuesday, the London Bullion Market Association (LBMA) said.

The dollar wobbled near a seven-month low on bets the US central bank will start cutting interest rates from next month, with traders bracing for comments from Federal Reserve Chair Jerome Powell on Friday.

"Gold is effectively trading in line with expected cross-asset correlations, albeit being driven more by the FX side rather than rates at the moment," said Marcus Garvey, head of commodities strategy at Macquarie.

China's BYD plans car plant in Karachi

REUTERS, Karachi

Chinese electric vehicle giant BYD has announced plans to open a car production plant in Pakistan, where it will also start selling three models through a partnership with Mega Motors.

BYD is the first major new electric vehicle (NEV) entrant in the Pakistani market, where there is a lack of charging infrastructure. "Our entry into the Pakistani market is not just about bringing advanced vehicles to consumers," said Liu Xueliang,

BYD's general manager for Asia Pacific, on Saturday. "It's about driving a broader vision of environmental responsibility and technological innovation.'

BYD also plans to open three "flagship stores and experience centres" in Karachi, Lahore and Islamabad, the company said at a launch event in Lahore, adding it plans to start selling two SUV models and a sedan from the fourth quarter of 2024.

Mega Motors is a unit of Pakistan's largest private utility Hub Power Co Ltd, known as Hubco.
