## US ships transit waters

AFP, Taipei

Taiwan said yesterday it detected 62 Chinese military aircraft near the self-ruled island this week, as two US ships sailed through the sensitive Taiwan Strait.

The US and its allies regularly transit the 180-kilometre Taiwan Strait to reinforce its status as an international waterway, angering Beijing. Beijing has never ruled Taiwan, but it claims the democratic island as part of its territory and has threatened to bring it under its control by force.

Taipei said the US ships travelled from north to south "starting from February 10".

China's People's Liberation Army said yesterday it had monitored the passage of the US destroyer and the ocean survey ship.

"This US action sent the wrong signal and increased security risks," Li Xi, a senior colonel and spokesman for China's Eastern Theatre Command, said in a statement.

Taiwan's defence ministry spokesman Sun Li-fang dismissed the criticism and said Taipei supported the freedom of navigation in the Taiwan Strait.

Dozens of Venezuelan migrants crossed the border from Costa Rica into Panama in a small caravan, having given up their journey to the United States.

# Modi heads to US in mission to dodge tariff battle

AGENCIES

The Indian Prime Minister Narendra Modi is heading to Washington for high-stakes talks in an attempt to avoid a trade war with Donald Trump.

India is considering tariff cuts in at least a dozen sectors in the hope of dodging US tariffs that would pile more pressure on its already slowing economy, reports The Guardian online.

Modi and Trump are set to meet in Washington today.

The exact timing of the meeting has yet to be confirmed.

According to The Indian Express online, Modi was due to land in Washington yesterday evening.

# More than \$53bn needed to rebuild Gaza: UN

AFP, United Nations

More than \$53 billion will be required to rebuild Gaza and end the "humanitarian catastrophe" that has gripped the war-ravaged territory, including \$20 billion in the first three years alone, the United Nations said Tuesday.

The global body said in a report that a "political and security framework" must also be put in place so that recovery and rebuilding can begin, and a groundwork can be laid for a political process to quickly end the Israeli occupation "and establish a viable two-State solution."

Much of Gaza -- including schools, hospitals and other civic infrastructure -- has been reduced to rubble by a

withering Israeli military offensive.

"The interim assessment offers an early indication of the enormous scale of recovery and reconstruction needs in the Gaza Strip," UN Secretary-General Antonio Guterres said in the document, cautioning that it was not a full assessment.

"The report estimates the recovery and reconstruction needs in the short, medium and long term across the Gaza Strip at \$53.142 billion.

Of these, the near-term needs in the first three years are estimated to be around \$20.568 billion," he added.

In a resolution adopted in December calling for an immediate and unconditional ceasefire in Gaza, the UN

General Assembly had asked Guterres to provide an assessment of the territory's needs within two months.

The report assessed that with "over 60 percent of homes" destroyed in the year-plus war between Israel and Palestinian group Hamas, the housing sector requires around \$15.2 billion.

The commerce and industry sector will need an estimated \$6.9 billion, as will the health sector, according to the report.

Reviving the agricultural industry will take around \$4.2 billion, transport will require \$2.9 billion, water and sanitation an estimated \$2.7 billion and education \$2.6 billion. The UN has estimated that the war has generated over 50 million tonnes of debris.

# Return to Ukraine's pre-2014 borders not realistic

## Says US defence chief

REUTERS, Brussels

US Defence Secretary Pete Hegseth said yesterday that a return to Ukraine's pre-2014 borders was unrealistic and the Trump administration does not see Nato membership for Kyiv as part of a solution to the war triggered by Russia's invasion.

Speaking at a meeting of Ukraine's military allies at Nato headquarters in Brussels, Hegseth delivered the clearest and bluntest public statement so far on the new US administration's approach to the nearly three-year-old war.

He also told Nato allies that they would have to assume greater responsibility for Europe's security.

"We want, like you, a sovereign and prosperous Ukraine. But we must start by recognising that returning to Ukraine's pre-2014 borders is an unrealistic objective," Hegseth told the meeting of more than 40 countries allied to Ukraine.

"Chasing this illusory goal will only prolong the war and cause more suffering," he added.

Russia annexed the Black Sea peninsula of Crimea from Ukraine in March 2014 and then backed pro-Russian separatists in an armed insurgency against Kyiv's forces in the eastern Donbas region of Ukraine.

# Record number of journos killed in 2024: CPJ

## Israel mostly responsible

REUTERS, WASHINGTON

A record number of journalists was killed around the world last year, the Committee to Protect Journalists (CPJ) said yesterday, adding that Israel was responsible for nearly 70 percent of the deaths.

At least 124 journalists in 18 countries died in 2024, the deadliest year for reporters and media workers since the committee started recording the numbers more than three decades ago, the CPJ said in a statement.

CPJ said the Israel-Gaza war has accounted for the deaths of 85 journalists at the hands of the Israeli military, and accused Israel of attempting to stifle investigations of incidents, shift blame onto journalists and ignore its duty to hold people to account for the killings.

# NAMING OF GULF OF MEXICO

## White House bars AP reporter

AFP, Washington

The Associated Press (AP) said Tuesday that its White House reporter was barred from an event with President Donald Trump over the top US news agency's refusal to follow his order renaming the Gulf of Mexico as the Gulf of America.

"We were informed by the White House that if AP did not align its editorial standards with President Donald Trump's executive order renaming the Gulf of Mexico as the Gulf of America, AP would be barred from accessing an event in the Oval Office," AP Executive Editor Julie Pace said.

"This afternoon AP's reporter was blocked from attending an executive order signing," Pace said.
