asylum seekers. The number rose from 23,448 in 2023 to 33,455 in 2024, a 43 percent increase.

Bangladeshi nationals were the largest group of applicants in Italy, accounting for 21 percent of all asylum requests, followed by Peruvians at 10 percent.

In contrast, Bangladeshi asylum applications in France dropped from 10,215 in 2023 to 6,429 in 2024. However, applications in Greece increased from 640 in 2023 to 1,004 in 2024.

Despite the rise in applications, the recognition rate for Bangladeshi asylum seekers remained among the lowest, at approximately four percent, similar to Georgian nationals. The rate aligns with that of the previous years, said the EUAA.

In comparison, 90 percent of Syrian asylum applicants and 63 percent of Afghan applicants were granted protection in 2024.

According to the report, more than one million asylum applications were submitted in the EU, Norway, and Switzerland last year, which is 11 percent lower than 2023.

Germany remained the top choice for asylum seekers in 2024, receiving 237,000 applications, but this was 29 percent lower than the previous year.

Spain, Italy, and France followed, each receiving around 160,000 applications. Cyprus and Greece received the highest number of applications per capita, with one asylum request for every 140 residents.

various Awami League offices and leaders' homes across the country from February 5 to 7,” it added.

The rights body also highlighted the incidents of killings, injuries, and arrests of innocent Bangladeshis at the Indian border.

The HRSS report, prepared based on its own findings and the news published by several media outlets, said at least nine people were killed and 755 people were injured in 104 incidents of political violence, a slight decrease compared to January, when 15 people were killed and 987 people were injured in 124 such incidents.

HRSS said three people were killed in “clashes with law enforcement agencies,” including two youths, on February 20 during a joint forces operation in the Chand Udyan area of Mohammapur in the capital.

The report also said at least 10 people were killed and 13 others injured in 17 incidents of mob violence, while 12 accused or convicts died in prison custody.

The report stated that at least 107 women and female children were tortured in February. Of them, 53, including 38 children, were raped.

According to HRSS, it is crucial to improve the overall situation through discussions with political parties, civil society, journalists, and student activists to establish the rule of law, democracy, and human rights in the country.

It is needed to ensure the fundamental and constitutional rights of the people by keeping the law and order under control, it added.

picked up by the police on Sunday night.

Police suspect that the victim's actions were instigated due to problems with the husband, added ASP Wahiduzzaman.

However, workers yesterday started a protest claiming that the factory was responsible for Afsana's death, the police official said.

The workers blocked the highway, set fire to motorcycles, bicycles, and private cars in front of the factory.

The workers ended the protest after authorities showed them the footage, he said

that the amount remains insufficient to prevent a significant deterioration of conditions in the Rohingya camps due to a widening funding gap.

Yunus reaffirmed Bangladesh's commitment to addressing the Rohingya crisis, calling it a “major issue” for the country.

The hour-long discussion also covered regional energy connectivity, flood management, climate change, and the interim government's reform initiatives.

Yunus sought EU support for importing hydroelectricity from Nepal, highlighting its potential to aid Bangladesh's transition to renewable energy and reduce reliance on fossil fuels.

“We talk about renewable energy, and here it is. Both Nepal and Bhutan are eager to sell renewable energy to us,” he said.

Lahbib emphasised the need for greater cooperation in disaster preparedness, climate change mitigation, and flood control, stating that the EU is keen to share best practices with Bangladesh.

the prepaid meter, consumers must bear the cost of installing a separate pipeline from the riser to the kitchen.

Depending on the building's structure, the cost may range from Tk 4,000-12,000 per stove.

“Prepaid meters will save gas bills, which is fine. But the tenant pays the bill. As a homeowner, how do I benefit? On top of that, I have to spend extra to install a new line, and then there will be a monthly meter rental fee as well,” said Motiur Rahman, a resident of Halishahar area of the port city.

Another consumer from Agrabad said it is not possible for him to spend so much money for installing meters with separate lines from the riser for the 12 apartments that he owns.

Officials informed that 73,400 of the 1 lakh meters allocated for the second phase have been installed so far.

However, the remaining applicants have shown little interest regarding prepaid meter installation despite regular newspaper advertisements, SMS notifications, letters, and even in person visits by project officials to draw their attention.

Asked, Nahid Alam said 60,000 meters were installed in the first phase, and the second phase is ongoing for another 1 lakh consumers. He said plans are underway to gradually bring other consumers under the prepaid metering system.

Approximately 6 lakh prepaid meters are required for all residential consumers in areas under KGDCL, he added.

Kamal said, “There is no environment for politics in this country. At my age, it is not possible to continue in politics. That is why I have stepped away from politics. I want a new generation of young leaders to emerge.”

Later, he was taken to prison.

Kamal, who was an AL MP for Dhaka-15 for 15 years, gained notoriety in Mirpur area by introducing an arbitration system that operated outside the established legal system.

EX-IGP LOSES TEMPER

Former inspector general of police AKM Shahidul Hoque, who was among the six who were produced before the CMM court, lost his temper in the courtroom yesterday.

Twice, he was seen getting angry with police personnel next to the dock as they were barring him from talking to an individual and his lawyers.

As a police official requested he seek the court's permission first, Shahidul addressed him and said, “What haven't I done for the police? I can't even speak in an open court.”

nine flats in Gulshan, Dhaka Cantonment, and Bashundhara, along with a 20-storey building in Gulshan and 43.20 decimals of land in Badda, Nikunja, and Gazipur. His wife, Anjuman Ara Shahid, owned six flats and 21.25 decimals of land, while their son, Chowdhury Rahib Safwan Sarafat, owned seven flats in Banani and Baridhara.

The court has also ordered the freezing of foreign assets linked to Bashundhara Group Chairman Ahmed Akbar Sobhan Shah Alam, eight of his family members, and MD Sayem Sobhan Anvir in six countries and two offshore jurisdictions.

Their wealth, allegedly amassed through illicit means, has reportedly been laundered to the UAE, Slovakia, St Kitts and Nevis, Switzerland, the British Virgin Islands, the UK, Singapore, and Cyprus.

According to the ACC's report, 55 court orders have led to the confiscation of 191.80 acres of land worth Tk 690 crore, 28 houses valued at Tk 44 crore, 38 flats worth Tk 17 crore, 15 plots valued at Tk 8.75 crore, and 23 cars worth Tk 29.32 crore.

Outside Bangladesh, the court has ordered the seizure of assets worth \$8.88 lakh and €86.20 lakh from 23 companies.

Additionally, 54 court orders have frozen 473.95 crore shares worth Tk 8,713.14 crore, alongside 1,030 bank accounts holding Tk 817 crore.

ACC Public Prosecutor Mir Ahmed Ali Salam said, “The court has approved the ACC's petitions, leading to the seizure and freezing of a massive amount of illicit wealth, worth over Tk 10,000 crore.”

Regarding foreign asset seizures, he added, “The ACC forwards the court orders to the Ministry of Foreign Affairs, which then coordinates with relevant countries for necessary action.”
