

SAGAR-RUNI MURDER
Probe report
deadline extended
for 118th time

COURT CORRESPONDENT

A Dhaka court yesterday extended the deadline for submitting the probe report on the 2012 murders of journalist couple Sagar Sarowar and Meherun Runi to May 21.

This marks the 118th extension of the deadline, according to case records.

Dhaka Metropolitan Magistrate MA Azharul Islam set the new date after Investigation Officer Md Azizul Haque, also an additional superintendent of police at the Police Bureau of Investigation (PBI), failed to submit the report, said a court police.

Meanwhile, investigators have so far spoken to over 70 people, said a PBI official, requesting anonymity.

The agency also interrogated six individuals: sacked army official Ziaul Ahsan, former police officer Mashhur Rahman, ex-justice AHM Shamsuddin Chowdhury Manik, former navy officer Mohammad Sohail, and accused Humayun Kabir and Palash Rudra Paul.

Sagar, a news editor at Maasranga TV, and Runi, a senior reporter at ATN Bangla, were killed on February 11, 2012, at their rented apartment in Dhaka's West Rajabazar. Their five-year-old son, Mahir Sarowar Megh, was in the flat at the time.

Women carry pitchers after collecting water from a deep tube well in Chattogram's Sagarika area recently. Residents have been relying on such sources due to persistent salinity problems in the main water supply. This issue typically resurfaces at the start of the dry season each year and cannot be resolved by boiling the water.

CHATTOGRAM MEDICAL COLLEGE HOSPITAL

3 years without MRI service

ARUN BIKASH DEY, Chattogram

Mithun Barua, a resident of Chattogram's Muradpur area, went to Chattogram Medical College Hospital last week with pain in his right leg.

The doctor advised him to get an MRI test.

To his utter surprise, he learned that the hospital's MRI service was unavailable.

"I thought I would get the test done at CMCH at a cheaper rate, but I didn't know that the hospital's MRI machine is no longer operational. Now I would have to do the test in a private diagnostic centre at a much higher cost," he lamented.

Subrata Chowdhury, a resident of Jamal Khan area, who came with severe back pain, shared a similar inconvenience.

Like Mithun and Subrata, many patients have been suffering as the lone MRI machine at CMCH has been out of service for around three years.

Both indoor and outdoor patients at CMCH earlier could avail of the service for Tk 3,000-5,000, whereas it costs Tk 9,000-20,000 for the same service at private facilities, said CMCH sources.

In 2017, the health ministry allocated Tk 9.84 crore for a Japanese Hitachi MRI machine, replacing the old machine that stopped working in 2014.

The machine was installed in the hospital's new cardiology building and inaugurated on October 24, 2017. However, it did not get fully functional till January 2018 due to film shortages. A technical glitch in October 2020 resulted in a seven-month service disruption until May 2021.

The machine continued to experience recurring malfunctions before ceasing operation on May 16, 2022.

According to CMCH sources, the machine's warranty period expired in August 2020. When the machine went out of order in 2022, the supplier company demanded Tk 1 crore (10 percent of its price) per year for a comprehensive maintenance contract (CMC). However, the CMCH authorities offered to pay Tk 65 lakh, leading to a tangle that left the machine without repairs for three years.

"Around 12 patients from my ward require MRI tests daily. Many cannot afford the costs at private facilities, so urgent repair of CMCH's MRI machine is crucial," said Prof Pradip Kumar Kayasthagiri of Neuro Medicine Ward at CMCH.
