

# BREATHE THE FUTURE

THE WORLD'S NO.1 SPLIT AC BRAND IN 2024  
serving 400+ million users across 200+ countries

When the Heat Rises, GREE Cools Smarter. Bangladesh knows heat and GREE knows how to beat it better, faster and cleaner. As the world's No.1 AC brand, GREE brings you not just machines, but a movement toward comfort with purpose. This summer, electromart introduces four distinct series built to match your life, your space and your expectations.

## MODEL: CLIVIA

Wellness-first cooling for your family

Clivia puts your family's health at the center. Featuring AI-driven air quality sensors, UV sterilization and dual-stage filtration,

it ensures every breath is safer. It also delivers stable cooling even in low-voltage areas, making it a perfect choice for homes beyond the city.

## MODEL: ZENO

Cool, clean and deeply intelligent

Cool, clean and deeply intelligent. Zeno combines air purification and energy intelligence in one elegant machine. The Cold Plasma Generator removes allergens and microbes, while smart app controls adjust performance based on your needs. With auto-clean, energy optimizer and whisper-quiet cooling — Zeno is built for those who expect more than just cooling from an AC.

## MODEL: SHIMO

Made for Bangladesh, built to last

Shimo is GREE's powerhouse - engineered for homes that face unstable voltage, extreme heat and urban dust. With its wide voltage protection, corrosion-resistant construction and quiet airflow, Shimo performs where others fail. Ideal for those who want peace of mind all year round.

## MODEL: COSMO

Modern control, lightning-fast comfort

Cosmo is for those who demand performance and smart tech in perfect balance. Built with Brushless DC Inverter, it features Wi-Fi & Bluetooth connectivity, rapid-response smart sensors and 4-step self-cleaning. From bedrooms to boardrooms, Cosmo adapts instantly — providing cool that thinks for itself.

### WARRANTY THAT HAS YOU COVERED

GREE ensures lasting comfort with one of the best warranty packages in the industry up to 12 years on the compressor, 5 years on spare parts (inverter models) and 2 years free service. Non-inverter models come with 30 months compressor and parts warranty and up to 24 months free service. With GREE, comfort is guaranteed.

### SMARTER SERVICE, SIMPLIFIED - WITH TECHBONDHU

GREE TechBondhus are always ready to help; just a call away! Whether it's installation, servicing or expert advice, our trusted technicians are standing by to ensure your comfort and convenience. With GREE, support comes with a smile; fast, friendly and reliable. Call 16649 for your service appointment.
