REUTERS

China's exports of rare-earth magnets rose to the second-highest level on record in November, the first full month after the US and China agreed to streamline exports of the elements.

Exports hit 6,150 metric tons in November, according to customs data

released on Saturday, up 12% from October and the highest since the record 6,357 tons in January.

China restricted exports of the specialised magnets used in weapons, cars and phones in April during the trade war unleashed by US President Donald Trump, bringing parts of the global supply chain to a halt.

'Interim govt failed to prevent attack'

FROM PAGE 3
Prothom Alo, and Chhayanaut. These are not random acts. They represent a deliberate threat to freedom of expression and democratic rights," said Amit Ranjan Dey.

Calling the destruction of Udichi's archives a cultural catastrophe, Dey said decades of documentation – songs, scripts, photographs, and records of resistance – had been destroyed overnight. "This is not just an attack on a building. It is an attempt to erase memory," he said.

Udichi leaders warned that continued inaction would embolden extremist forces further. They also argued that the state's failure to ensure the safety of cultural and media institutions risks undermining its own democratic foundations.

They demanded immediate identification, arrest, and prosecution of those responsible for the attack, and pledged to remain on the streets until accountability is ensured.

Udichi assistant general secretary Pradip Ghosh and CPB Dhaka north president Hasan Hafizur Rahman Sohel also spoke among others.
